

POLICY RELATING TO PUPIL SERVICES

PARENT-TEACHER CONFERENCES

The Wachusett Regional School Committee is committed to effective instruction for the students. The classroom teacher is the key to such effective instruction. The School Committee recognizes that school-home communication is critical and encourages teachers to conference with parents on a frequent basis. The accomplishment of school-home conferencing should neither interfere with the instructional requirements of the state and the District nor take the teacher away from direct instruction of his/her classes.
